# Additional information

Full text of classification: see section 16

# SECTION 4: First aid measures

### Description of first aid measures 4.1

# General information

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

# In case of inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

# Following skin contact

Take off immediately all contaminated clothing. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

# After eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

# **Following ingestion**

If swallowed, rinse mouth with water (only if the person is conscious). Seek medical advice immediately. Keep victim calm. Do NOT induce vomiting.

Most important symptoms and effects, both acute and delayed 4.2

In all cases of doubt, or when symptoms persist, seek medical advice.

Indication of any immediate medical attention and special treatment needed 4.3. First Aid, decontamination, treatment of symptoms.

# SECTION 5: Firefighting measures

# 5.1. Extinguishing media

Suitable extinguishing media

alcohol resistant foam, carbon dioxide, Powder, spray mist, (water)

# Unsuitable extinguishing media

strong water jet

# 5.2. Special hazards arising from the substance or mixture

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

### 5.3 Advice for firefighters

Provide a conveniently located respiratory protective device. Cool closed containers that are near the source of the fire. Do not allow water used to extinguish fire to enter drains, ground or waterways.

# **SECTION 6: Accidental release measures**

6.1. Personal precautions, protective equipment and emergency procedures

Keep away from sources of ignition. Ventilate affected area. Do not breathe vapours.

## **Environmental precautions** 6.2.

Do not allow to enter into surface water or drains. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

### Methods and material for containment and cleaning up 6.3

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see section 13). Clean using cleansing agents. Do not use solvents.

### 6.4. Reference to other sections

Observe protective provisions (see section 7 and 8).

# SECTION 7: Handling and storage

# 7.1. Precautions for safe handling

# Advices on safe handling

Avoid formation of flammable and explosive vapour concentrations in the air and exceeding the exposure limit values. Only use the material in places where open light, fire and other flammable sources can be kept away. Electrical equipment must be protected meeting the accepted standard. Keep away from heat sources, sparks and open flames. Use only spark proof tools. Avoid contact with skin, eyes and clothes. Do not inhale dusts, particulates and spray mist when using this preparation. Avoid respiration of swarf. When using do not eat, drink or smoke. Personal protection equipment: refer to section 8. Do not empty containers with pressure - no pressure vessel! Always keep in containers that correspond to the material of the original container. Follow the legal protection and safety regulations.

# **Further information**

Vapours are heavier than air. Vapours form explosive mixtures with air.

# 7.2. Conditions for safe storage, including any incompatibilities

# Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks. Soils have to conform to the "Guidelines for avoidance of ignition hazards due to electrostatic charges (TRGS 727)".

# Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

# Further information on storage conditions

Take care of instructions on label. Store in a well-ventilated and dry room at temperatures between 15 °C and 25 °C. Protect from heat and direct sunlight.

Due to the content of organic solvents in the preparation:

Protect from heat and direct sunlight. Keep container tightly closed. Remove all sources of ignition. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

# 7.3. Specific end use(s)

Observe technical data sheet. Observe instructions for use.

# SECTION 8: Exposure controls/personal protection

# 8.1. Control parameters

# Occupational exposure limit values:

(2-methoxymethylethoxy)propanol EC No. 252-104-2 / CAS No. 34590-94-8

WEL, TWA: 308 mg/m3; 50 ppm Remark: (may be absorbed through the skin)

# Additional information

TWA : Long-term occupational exposure limit value STEL : short-term occupational exposure limit value Ceiling : peak limitation

# DNEL:

(2-methoxymethylethoxy)propanol

EC No. 252-104-2 / CAS No. 34590-94-8

DNEL long-term dermal (systemic), Workers: 283 mg/kg

DNEL long-term inhalative (systemic), Workers: 308 mg/m<sup>3</sup>

DNEL long-term dermal (systemic), Consumer: 121 mg/kg

DNEL long-term inhalative (systemic), Consumer: 37,2 mg/m<sup>3</sup>

DNEL long-term exposure oral (systemic effects), Consumer: 36 mg/kg

# PNEC:

(2-methoxymethylethoxy)propanol

EC No. 252-104-2 / CAS No. 34590-94-8

PNEC aquatic, freshwater: 19 mg/L

PNEC aquatic, marine water: 1,9 mg/L

PNEC aquatic, intermittent release: 190 mg/L

PNEC sediment, freshwater: 70,2 mg/kg

Article No.:	XPE80001LJ10	[Z] ZowoHome® 8450
Print date:	25.04.2023	Revision date: 17.03.2023
Version:	6.0003	lssue date: 17.03.2023

Page 4 / 8

PNEC sediment, marine water: 7,02 mg/kg PNEC, soil: 2,74 mg/kg PNEC sewage treatment plant (STP): 4168 mg/L

# 8.2. Exposure controls

Provide good ventilation. This can be achieved with local or room suction. If this should not be sufficient to keep aerosol and solvent vapour concentration below the exposure limit values, a suitable respiratory protection must be used.

# Personal protection equipment

# **Respiratory protection**

If concentration of solvents is beyond the occupational exposure limit values, approved and suitable respiratory protection must be used. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190). Use only respiratory protection equipment with CE-symbol including four digit test number.

# Hand protection

For prolonged or repeated handling the following glove material must be used: Butyl caoutchouc (butyl rubber)

Thickness of the glove material > 0,4 mm ; Breakthrough time: > 480 min.

Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin. Recommended glove articles EN ISO 374

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

# Eye/face protection

Wear closely fitting protective glasses in case of splashes.

# Body protection

Wear antistatic clothing of natural fibers (cotton) or heat resistant synthetic fibers.

# Protective measures

After contact clean skin thoroughly with water and soap or use appropriate cleanser.

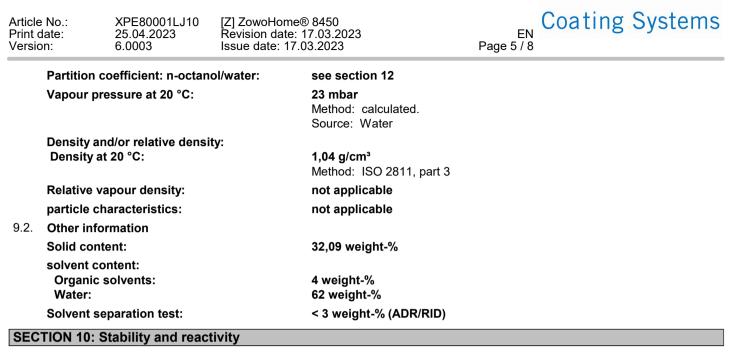

# Environmental exposure controls

Do not allow to enter into surface water or drains. See section 7. No additional measures necessary.

# **SECTION 9: Physical and chemical properties**

# 9.1. Information on basic physical and chemical properties

Physical state:	Liquid
Colour:	refer to chapter 1.
Odour:	characteristic
Odour threshold:	not applicable
Melting point/freezing point:	not applicable
Initial boiling point and boiling range:	<b>100 °C</b> Source: Water
Flammability:	not applicable
Lower and upper explosion limit: Lower explosion limit: Upper explosion limit:	<b>1,1 Vol-%</b> <b>14 Vol-%</b> Source: (2-methoxymethylethoxy)propanol
Flash point:	not applicable
Auto-ignition temperature:	<b>207 °C</b> Source: (2-methoxymethylethoxy)propanol
Decomposition temperature:	not applicable
pH at 20 °C:	not applicable
Cinematic viscosity (40°C):	> 700 mm²/s
Viscosity at 20 °C:	<b>60 s 8 mm</b> Method: DIN 53211
Solubility(ies): Water solubility at 20 °C:	miscible

Z ZOBEL

# 10.1. Reactivity

No information available.

# 10.2. Chemical stability

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7.

# 10.3. Possibility of hazardous reactions

Keep away from strong acids, strong bases and strong oxidizing agents to avoid exothermic reactions.

# 10.4. Conditions to avoid

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7. Hazardous decomposition byproducts may form with exposure to high temperatures.

# 10.5. Incompatible materials

# not applicable

10.6. Hazardous decomposition products

Hazardous decomposition byproducts may form with exposure to high temperatures, e.g.: carbon dioxide, carbon monoxide, smoke, nitrogen oxides.

# **SECTION 11: Toxicological information**

# 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

# Acute toxicity

(2-methoxymethylethoxy)propanol oral, LD50, Rat: > 5000 mg/kg dermal, LD50, Rabbit: > 5000 mg/kg

# Skin corrosion/irritation; Serious eye damage/eye irritation

(2-methoxymethylethoxy)propanol Skin

no irritation eyes

# Respiratory or skin sensitisation

(2-methoxymethylethoxy)propanol

# CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

Based on available data, the classification criteria are not met.

# STOT-single exposure; STOT-repeated exposure

(2-methoxymethylethoxy)propanol Evaluation No data available

Aspiration hazard

Article No.:	XPE80001LJ10	[Z] ZowoHome® 8450
Print date:	25.04.2023	Revision date: 17.03.2023
Version:	6.0003	Issue date: 17.03.2023

# **Coating Systems**

Page 6 / 8

(2-methoxymethylethoxy)propanol

Aspiration hazard; Evaluation Represents no obvious danger of aspiration due to its physical properties

# Practical experience/human evidence

Inhaling of solvent components above the MWC-value can lead to health damage, e.g. irritation of the mucous membrane and respiratory organs, as well as damage to the liver, kidneys and the central nerve system. Indications for this are: headache, dizziness, fatigue, amyosthenia, drowsiness, in serious cases: unconsciousness. Solvents may cause some of the aforementioned effects through skin resorption. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and/or absorption through skin. Splashing may cause eye irritation and reversible damage.

# **Overall assessment on CMR properties**

The ingredients in this mixture do not meet the criteria for classification as CMR category 1A or 1B according to CLP.

# 11.2. Information on other hazards

# Endocrine disrupting properties

No information available.

# **SECTION 12: Ecological information**

Classification according to Regulation (EC) No 1272/2008 [CLP] There is no information available on the preparation itself . Do not allow to enter into surface water or drains.

# 12.1. Toxicity

(2-methoxymethylethoxy)propanol Fish toxicity, LC50, Pimephales promelas (fathead minnow): 10000 mg/L (96 h) Daphnia toxicity, EC50, Daphnia magna (Big water flea): 1919 mg/L (48 h)

# Long-term Ecotoxicity

Toxicological data are not available.

# 12.2. Persistence and degradability

(2-methoxymethylethoxy)propanol

: 75 % (28 D); Evaluation Readily biodegradable (according to OECD criteria).

- Method: OECD F
- :93 % (13 D)

Method: OECD 302B/ ISO 9888/ EEC 92/69/V, C.9

# 12.3. Bioaccumulative potential

(2-methoxymethylethoxy)propanol Partition coefficient: n-octanol/water: 1,01

# **Bioconcentration factor (BCF)**

Toxicological data are not available.

# 12.4. Mobility in soil

(2-methoxymethylethoxy)propanol

Evaluation No data available

# 12.5. Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

# 12.6. Endocrine disrupting properties No information available.

# 12.7. Other adverse effects

No information available.

# **SECTION 13: Disposal considerations**

# 13.1. Waste treatment methods

# Appropriate disposal / Product

# Recommendation

Do not allow to enter into surface water or drains. This material and its container must be disposed of in a safe way. Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste.

# List of proposed waste codes/waste designations in accordance with EWC

080112 waste paint and varnish other than those mentioned in 08 01 11

Print date: 25.04.2023	[Z] ZowoHome® 8450 Revision date: 17.03.2023 Issue date: 17.03.2023
------------------------	---

# Appropriate disposal / Package

Recommendation

Non-contaminated packages may be recycled. Vessels not properly emptied are special waste.

# **SECTION 14: Transport information**

OLU			
	No dangerous good in sense of this transport regulation.
